

UNIQUE **S**TYLE **P**LATFORM
ESSENTIAL INSPIRATION FOR CREATIVE MINDS

USP INSPIRE:
FETISH

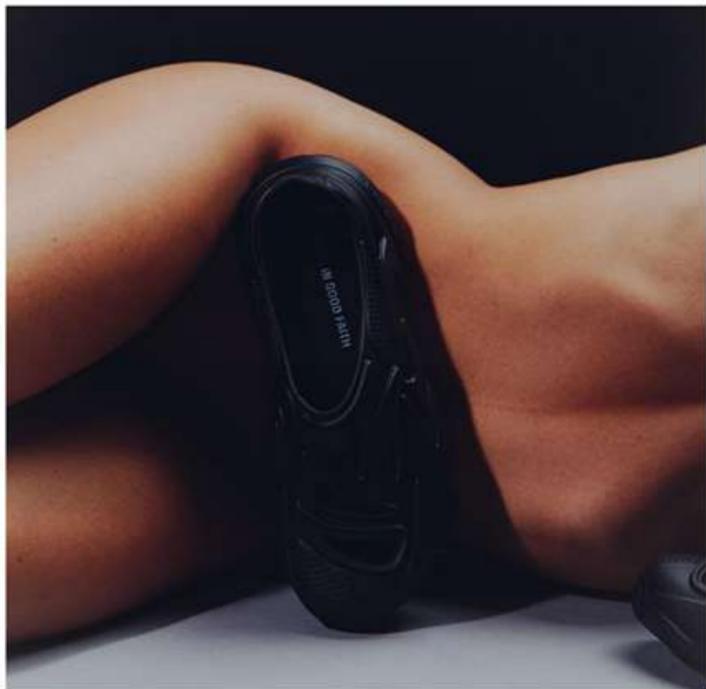

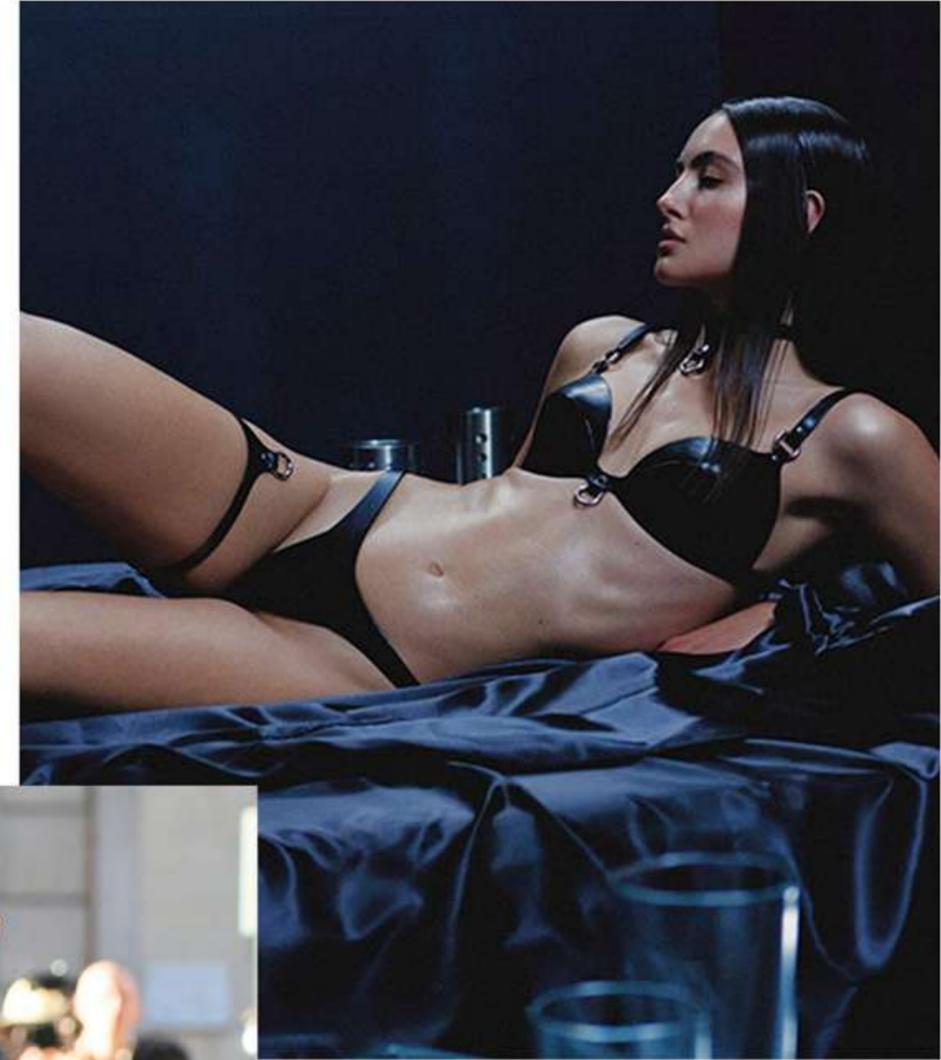

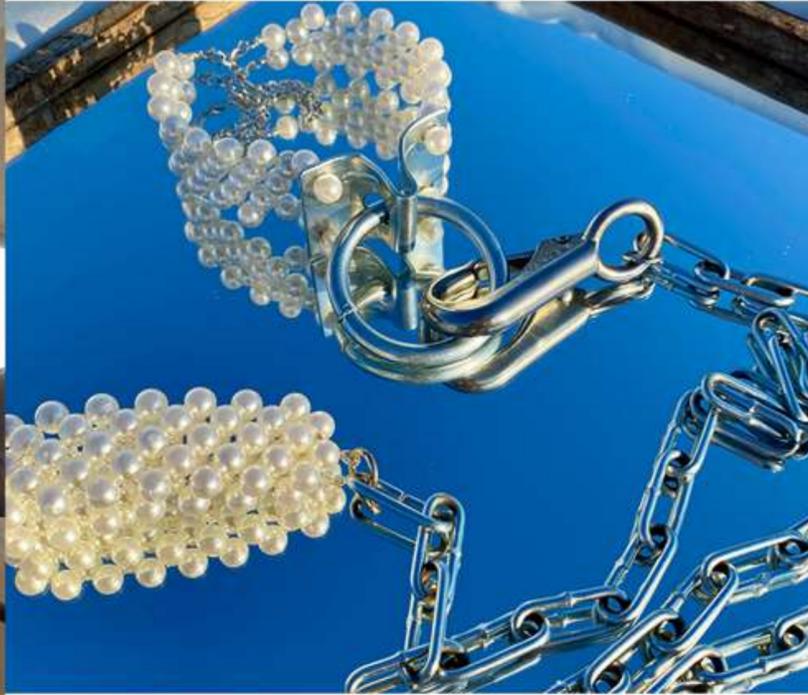

Latex, chains and **bondage-inspired** aesthetics are influencing a growing **fetishcore** trend, as consumers become more open with their sexual desires.

Fashion and lingerie designers are reinventing classic fetish styles for a high-end market, such as **Venus Snot** who creates opulent and feminine kinkwear, softening the “aggressive” aesthetics typically associated with BDSM.

Accessories are key, from **Frank Ocean’s Homer** cock ring, to “jizzy jewellery” (pearls made out of semen), to chokers adorned with crystal butt plugs and shoes made from recycled sex toys.

New films and TV shows are also influencing a fetish obsession. **Paris Hilton, Sky Ferreira,** and **Pamela Anderson** star in *18 & Over*, an “erotic” slasher movie based on *OnlyFans*, plus set to release soon, *The Idol* is advertised as “the sleaziest love story in all of Hollywood,” featuring plenty of sex, alcohol, and money.

Be inspired by latex, leather and metal chains for lingerie, womenswear and accessories, elevated with luxury materials such as pearls and silk
