Pickle Please!

As predicted in our overarching S/S 26 colour report, shades of green such as **Celeriac** (USP 944) and **Lime Cordial** (USP 1411) are set to become the new food-forward fashion colours for S/S 26.

The latest menswear catwalks highlighted the importance of greens at **Louis Vuitton** and **Dior**, as did the **Resort 26** womenswear collections.

Head-to-toe **monochromatic outfits** and **pops of pickle green** accessories are key, both on the catwalks and street style. While fabrications in green include **suede**, **satin** and **corduroy**.

Chappell Roan's new music video '*Subway*' brings the trend to life, featuring a head-to-toe green wig, alongside a guest appearance by the **Green Lady of Brooklyn**.

USP: Pickle green is emerging as a must-have shade for S/S 26.
